- 4. Setup wiring: ATX-buttons, LEDs and Piezo-buzzer on Raspberry
- 5. Software hints for operation
- 6. Problems and possible solutions
- 7. Operation

2. Setup

Register at FMLIST

Registration is checked manually; you may want to register at https://www.fmlist.org/ - asking for access to *URDS* - before starting the setup and hope it's finished until the “Pi” is ready. In case FMLIST shows up in a foreign language, try to change in the upper right corner of the site.

Same for the mailing list at https://groups.io/g/fmlist-scanner

Continue

The sections

- 2.1.1 Setup Operating System onto the Raspberry Pi
- 2.1.2 Setup Operating System onto the Orange Pi 3 LTS
- 2.1.3 Setup Operating System onto the Orange Pi Zero 2

are mutually exclusive.

Continue with **one** of these.
